

Workshop FILM IT! #nachts

FOR TEENS FROM THE AGE OF 14 | HAUS DER KUNST

The night has a magical quality. For most, it is the time when people come to rest, when they retire to their homes to sleep. But there are also the restless ones, the sleepwalkers, the night owls and criminals. Many of these are looking for something or for themselves. In 14 stations, the exhibition takes visitors on a journey through the night, that time between dreams and reality. On display are films, videos, installations and photographs from the Sammlung Goetz that reflect the different facets of a nightly foray.

Do you want to become creatively active and transform your nocturnal experiences into an art film using your mobile or smartphone? If so, then join us and let yourself be inspired by the works in our current exhibition! With the help of light, shadow, non- colors, sound, your body and various other materials, you can stage fantasy worlds, daydreams, obscure night films or night- walking clips! Your ideas for [#filmit](#) and [#nachts](#) will know no bounds. Afterwards, you can share your film clip on social media and with other young artists!

We are offering two workshop formats in the context of FILM IT! #nachts in the studios of Haus der Kunst:

WORKSHOPS FOR SCHOOL CLASSES AND REMEDIAL CLASSES
