

Ayzit Bostan for Sammlung Goetz

The Munich designer has created a bag for the art collection

“Urban, intelligent and true to itself”, is how Ayzit Bostan describes her style. The Turkish-German fashion designer has created a bag exclusively for the Sammlung Goetz. It is made of durable black cotton fabric, and has two short cotton handles and one leather shoulder strap. Its timeless, purist look is based on the Leather Tote Bag in Ayzit Bostan’s own collection. The limited-edition bag is available in the Sammlung Goetz shop for 30 euros.

Ayzit Bostan is a border crosser of disciplines: her minimalist and elegant clothes, T-shirts and sweaters with iconic prints are sold not only in boutiques, but also exhibited in galleries and museums. The Kunstverein München produced one of her T-shirts as a limited edition, and the designer has created bags and accessories for the international bag manufacturer Philipp Bree for several seasons now. Bostan is also a fine artist, a professor at the Kunsthochschule in Kassel, and works as a costume designer and a DJ in her spare time.
